Our weekly learning themes encourage preschoolers to be creative by imagining, designing, implementing, and improving on their own ideas while collaborating with their classmates.

LEARNING CENTERS

Daily opportunities to participate in developmentally-appropriate activities that help children learn new skills or practice existing skills in a fun, engaging, and supportive learning environment.

CREATIVE ARTS

Preschoolers explore their environment by moving, touching, and experimenting with different types of materials to express ideas.

IMAGINATIVE PLAY

Preschoolers role-play and engage with one another learning social skills and cultural awareness. They develop cooperation and negotiation skills while sharing their ideas and experiences within their play.

INTERACTIVE READ ALOUD

Purposeful and planned story time encourages preschoolers to actively take part by asking and answering questions and making predictions.

S.T.E.A.M. ACTIVITIES

Preschoolers are inspired to become problem solvers as they explore, investigate, make observations, and join in open-ended creative experiences in science, technology, engineering, art, and math.
